

10 good reasons why BC/EP Champions should consider Battle Baton Technology, arguably the World's leading BC/EP Integrated IT Solution, that enables those responsible to:-

1. Fulfil many business continuity obligations under the Civil Contingencies Act, the Cabinet Office directive (including RAG reporting) on Influenza Pandemic Planning and dovetails into BS25999.
2. Safely and securely compose, manage, share and enable collaboration about business continuity plans as well as communicate them effectively with automated:-
 - a. Version Control
 - b. Active Audit Trails
 - c. Two way responses (all staff can interact) – Currently by email with SMS available
3. Communicate and manage staff re-deployment to Work Area Recoveries related to any incident.
 - a. By single or multiple incident
 - b. By single or multiple Business Sectors – including organization wide
4. Keep safe and secure as well as automatically generate call trees with staff “Self-Certification” for:
 - a. Recovery Teams
 - b. Any number of Services and/or Work Groups
5. Automatically Monitor:-
 - a. Staff Availability
 - b. Who can work from home or not
 - c. Who has family carer responsibilities
 - d. Staff travel information – coming soon
 - e. What contacts (anyone loaded e.g. suppliers, schools, GPs, Pharmacists, Blue Lights) are “Available” or “Open/Closed”
6. Have accessible inventories of:
 - a. Skills
 - b. Needs
 - c. Critical services
 - d. Applications Used
7. New - Monitor Critical Functions and the teams that support them with automated/semi-automated RAG reporting with Early Warnings and Alerts (TOGGLE ON/OFF capability)
8. Have the ability to receive “Early Warnings” and “Alerts” related to:-
 - a. Staff Shortages
 - b. “Are You Safe?”
 - c. Inventory shortages

Toggle ON/OFF capability
9. Never have to ask these questions again:-
 - a. Where is that business continuity document?
 - b. Who is responsible for it?
 - c. Is it the latest version?
 - d. Who has changed it, when and how?
 - e. Who is affected by it?
 - f. How do we communicate our Plans and Actions?
 - g. What about Audit Trails?
10. Have independently hosted 21st Century Technology and Automation on your desktop that is accessible 24 / 7 – 365, in turn making your organization more resilient and generating efficiency savings.

Most of the above functionality can even be shown and saved in Bio-Demographic mapping format for history and lessons learnt and a whole lot more, including exclusion zones, points of interest, buildings, people and contacts!
